1. Purpose of Pilot Users

Pilot users are selected individuals who will participate in early testing phases of the application. Their feedback will help validate usability, clarity of the concept, and the perceived value of real-time, location-based questions and answers.

To ensure unbiased feedback, pilot users are preferably external to the ISPP course and not involved in the project development.

2. Pilot Users List

Name	Age	Contact	Background
Elisa Correro Ostos	21	elisacorreroostos@gmail.com	University student

3. Role of Pilot Users

- Answer surveys and feedback forms.
- Test core MVP features.
- Provide qualitative feedback on usability and usefulness.
- Detect confusing or unclear behaviors in the app.

4. Selection Criteria

- Frequent city activity.
- Interest in real-time information.
- Diversity in age, occupation, and usage context.
